---

Professional Summary

Frontend Engineer with 3+ years of experience building responsive, accessible web applications using modern JavaScript frameworks. Specialized in React, Angular, and Next.js development with expertise in state management, component architecture, and performance optimization. Proven ability to translate UI/UX designs into high-quality code with Tailwind CSS and Sass. Passionate about creating intuitive user experiences while maintaining high academic excellence in Computer Science.

Technical Skills

- **Frontend Frameworks:** React.js, Next.js, Angular
- **State Management:** React Context API, Redux, NgRx
- **CSS Frameworks:** Tailwind CSS, Bootstrap 5, Sass
- **UI/UX:** Responsive Design, Accessibility (WCAG), Framer Motion
- **Build Tools:** Webpack, Vite, npm/yarn
- **Version Control:** Git, GitHub

Education

Ladoke Akintola University of Technology — Expected 2027
B.Tech., Computer Science (High Academic Excellence) — Oyo, Nigeria
Soft Quest Incorporated — 2024
Frontend Development Certification — Oyo, Nigeria

Professional Experience

Frontend Developer – Crawdwall Company — 2025 – Present
- Develop responsive user interfaces using React.js and Tailwind CSS, creating seamless cross-device experiences
- Implement modular component architecture to improve code maintainability and reusability
- Optimize application performance through efficient rendering techniques and asset optimization
- Collaborate with design teams to build accessible interfaces compliant with WCAG standards

• Maintain and enhance existing codebase while implementing modern frontend best practices

Freelance Frontend Developer   2024 – Present

• Deliver pixel-perfect implementations of UI designs for 5+ clients
• Migrate legacy jQuery applications to modern React and Angular frameworks
• Implement responsive designs that adapt seamlessly across all device sizes
• Reduce bundle sizes by 30% through code splitting and lazy loading

Frontend Projects

Buzz Chat - Real-Time Communication Platform (Next.js)   Dec 2024 – Mar 2025

• Built responsive interface with Tailwind CSS supporting concurrent multiple users
• Implemented real-time messaging using WebSocket integration
• Developed custom video call interface with WebRTC and responsive layout
• Optimized performance achieving 90+ Lighthouse scores

Milki Hotel - Booking System (Angular)   Feb 2024 – Oct 2024

• Developed booking interface with Angular and Tailwind CSS
• Created responsive admin dashboard with interactive data visualizations
• Implemented form validation and error handling for seamless UX
• Reduced initial load time by 40% through lazy loading

Hope Academy - LMS (React)   May 2023 – Dec 2023

• Built interactive classroom interface with React and Tailwind CSS
• Developed real-time chat feature with Socket.IO integration
• Created accessible components meeting WCAG 2.1 standards
• Implemented dark/light mode toggle with persisted user preference

Certifications

Advanced React Developer   2023
Angular Fundamentals   2023
Responsive Web Design   2022
